

MOTO GUZZI MAPS

Updated to November 2009

Where there is more than one map, the most recent map is indicated in bold type (with the exception of specific maps for technical assistance)

file for Axone: file name available in the REPROGRAMMING screen of Axone or Navigator

engine	vehicle	file for Axone	Calibration code	Software number	notes
750	V7/NEVADA	V7NEVAD	3L09BN22	-	Most recent map which impedes activation of EFI warning light
			3L09BN22	-	Official map (with activation of EFI warning light)
			3L09BRV0	-	brevia 750 euro 2
			empty	-	brevia 750 euro 3

If the Map parameter is empty in the ISO/INFO ECU screen page, use the software number as reference
