A NEW ERA IS DAWNING

From the 1920's to the 1950's, Moto Guzzi were one of the most dominant forces in the world of motorcycle racing, winning ten TT's and eight World Championships.

Never afraid of new ideas Moto Guzzi always ran at the forefront of technology, culminating in the mid 50's development of the 500 V8 racer, timed at 178 mph in the 1957 Belgian Grand Prix!

Moto Guzzi retired from Grand Prix racing in 1957, but never lost the inspiration which gave them such success on the track; always producing sports motorcycles as leaders in their class.

Now, in 1992, as the new European age dawns, Moto Guzzi have launched their most exciting sports motorcycle to date, the 'Daytona 1000'. V-Twin, 4 Valve power at its most dynamic, a machine conceived through racing, with the pure sports rider in mind. Aimed squarely at the individual who appreciates Italian flair at its best, the Daytona promises to hit the mark.

Such a short introduction can never do justice to such a superlative machine. Contact your nearest dealer today; as a professional enthusiast, he will give you all the reasons why you should consider investing in one of the greatest names in motorcycling history - MOTO GUZZI.
